LATE SUMMER—EARLY FALL is best Lawn Fix-Up Time!

Your friendly Scotts Dealer listed on Page 4 is ready to help you make the most of this good season. Why not visit or phone him soon to get the lawn you've always wanted.

Be wise like Mother Nature. Do your planting in the fall. Select the wonderful autumn season to get rid of weeds, apply Turf Builder and sow the good Scotts Seed. Warm days, cool nights and gentle rains hustle the young grass into vigorous manhood.

Try the winning combination—Nature's planting time and Scotts to start a new lawn or make an old one better.

Here's the easy program:

- (1) Apply 4-XD to dispose of broad-leaved weeds.
- (2) If Crabgrass is present, wait 2 or 3 days, apply SCUTL to stop it.
Repeat per directions.
- (3) If weather is dry and lawn can not be watered, delay further treatment until after soaking rain.
- (4) Apply Turf Builder to feed grass, 10 lbs per 1000 sq ft.
- (5) Late August or September—sow Scotts Seed, 2 or 3 lbs per 1000 sq ft.

Directions, including spreader settings, in each Scotts package.

Scotts LAWN SEED

Top quality blend of all perennial grasses that makes the deluxe lawn in full sun or moderate shade. Painsstaking selection, triple cleaning and rigid laboratory control assure 99.91% weedfree quality. Economical because you need so little. One pound does the work of three of ordinary seed.

1 lb,	250 sq ft - \$ 1.50	50 lbs - \$ 71.00
5 lbs,	1,250 sq ft - 7.35	100 lbs - 140.00
25 lbs,	6,250 sq ft - 35.50	500 lbs - 660.00

Coverage shown is for brand new lawn. Packages will plant double that area of established lawn.

TURF BUILDER Lawn food

Formulated by Scotts especially to keep lawns healthy, vigorous and sparkling green. No offensive odor before or after use. Turf Builder feeds lawns better for less—use 1 lb per 100 sq ft instead of 3 lbs required of ordinary lawn fertilizers.
